Qualified full-stack developer familiar with experience in developing and designing web applications using HTML, CSS, JavaScript,
Node.js, and React e.t.c. Skilled at developing and deploying complex backend systems, web services and databases. Beyond
technical skills am a team player with a strong work ethic and a commitment to excellence. I am always eager to collaborate with
others, share knowledge, and tackle complex projects head-on. I am also a quick learner, constantly adapting to new technologies and
methodologies to stay updated.

Work Experience

Fullstack Developer
Caltextrader
August 2023 to November 2023

Developed the backend architecture and programs.
Reviewed code, debugged problems, and corrected issues.
Contributed to the application development and maintenance across the entire development lifecycle.
Effectively coordinated code deployments for optimal efficiency.
Used Nodejs, express and No-SQL mongoDB to develop and manage databases.
Oversaw and implemented continuous integration and deployment pipelines.

Frontend Developer
Accomease
March 2020 to August 2020

As a volunteer frontend developer, I performed tasks such as:
Code review, debugging, and refactoring.
Oversaw and implemented continuous integration and deployment pipelines.
UI/UX design
